Company Overview

Summer Sun Trading Company has entered the global market to produce and supply high-quality summer vegetables such as sweet peppers, garlic, cucumber, tomato, eggplant, and other squash. Using up-to-date knowledge, this company has produced organic and healthy summer vegetables with modern processing and packaging, including controlled atmosphere, nanotechnology, vacuum and all kinds of organic preservatives, first-class products for all consumers. Summer Sun Trading Company is committed to maintaining the health of the environment by producing healthy and organic products.

Business Description

The Middle East is one of the largest producers and exporters of summer crops in the world due to its diverse climate; This has caused most of the neighboring countries to import their required summer crops from this region. Summer exports are generally made to the countries on the southern shores of the Persian Gulf, Iraq, and Russia. One of the characteristics and advantages of this area of land is that cultivation is possible in all seasons; therefore, there are good export markets, especially to areas where summer crops are not cultivated in certain seasons. Germany has been the largest importer of summer vegetables in the world. After Germany, Russia, Iraq, France, Belgium, Italy, Pakistan, Qatar, Kuwait, UAE, Oman, Azerbaijan, Turkmenistan, and Tajikistan are the main importers of summer vegetables in the world. And Saudi Arabia, Bahrain, Georgia, Afghanistan, and Kazakhstan are considered as the local importers of summer crops.

Another potential market for summer crops in the Middle East is India. Observing global standards is one of the most important requirements for exports, especially in this highly competitive market. Summer crops are traded with the following tariff codes (HS code):

Sweet pepper: 070960

Tomatoes: 070200

Eggplant: 070930

Cucumber: 070700

Garlic: 070320

Pumpkin: 070993

Vision and Values

Summer Sun Trading Company will be a reputable, innovative, reliable, and well-known company. Adopting new sales policies, this company will expand its activities across all borders in order to be known as one of the largest producers of summer crops and will deliver its products all over the world in all seasons.

Delivery and Payment

Exporting agricultural products, especially summer crops, require an on-time delivery so as to maintain the quality and freshness of the products. Due to the geographical condition of the Middle East and its access to land, air and sea borders, the delivery of the products is done both promptly and conveniently. Dear customers can always suggest their desired delivery methods. During all delivery stages, the products will be observed so that it reaches the customers without loss of quality. We use the most modern land and sea containers equipped with humidity and temperature controlling systems as well as air circulation facilities to deliver our summer crops with a guaranteed quality.

Having multiple foreign currency accounts under the company name, and natural persons approved by the company, we suggest Telegraphic Transfer. You can also discuss your desired payment method with our experts.
